

# FAST FIX FRAMING SCREWS

A safer, stronger, faster solution for stick build and prefab construction, providing a secure stud to wall plate and plate to lintel/beam connection

- WM8135PS (135mm) for single top plate tie down  
WM8175PS (175mm) for double top plates tie down

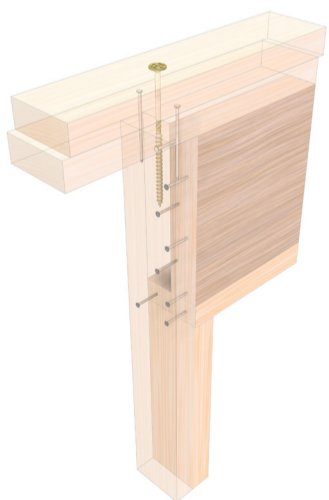

- All screws are head stamped to ensure quality and instant identification

- Installed in a controlled manufacturing environment and designed with engineering software, making certification a breeze

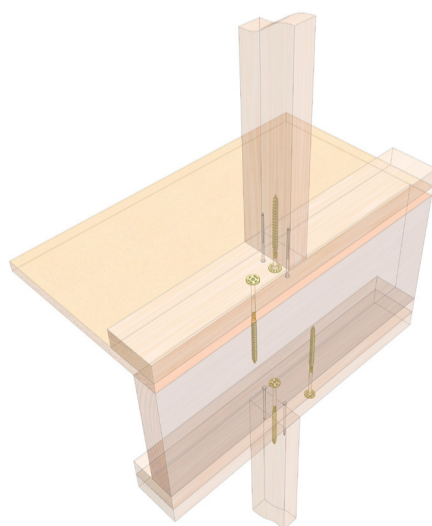

- Waterproof tag attached to the top and bottom plate to help certifiers clearly identify the screw type and location

## FASTFIX™ FRAMING SCREWS APPLICATIONS

Top plates to jamb stud connections

Single plate to beam connections
