# **BETTER BY DESIGN**

Finding better ways to design and build is the Pryda way. For over 50 years, Pryda has delivered engineered productivity solutions to help builders do their best work.

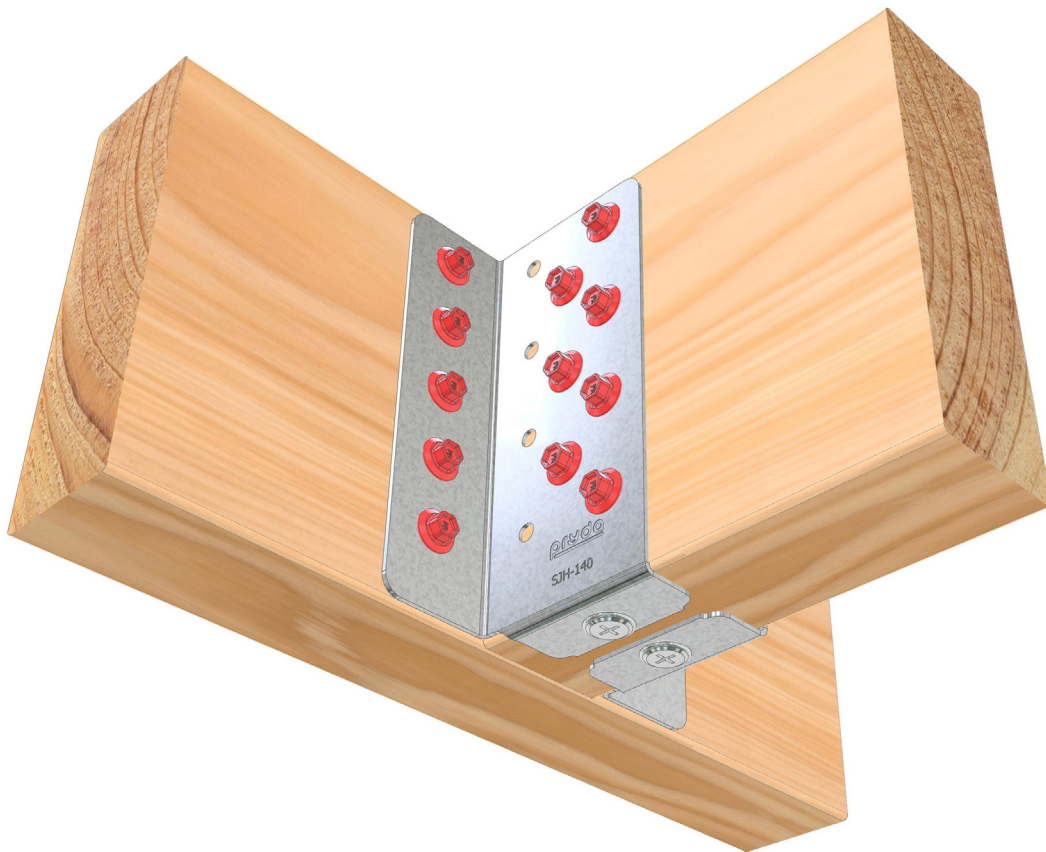

**SAFER. FASTER. SMARTER. EASIER.**

# PRYDA SPLIT JOIST HANGER

Introducing Pryda's new Split Joist Hanger range, an engineered versatile design that is a safer and easier product to install.

The Split Joist Hangers are heavy duty, adjustable to suit multiple timber sizes and can be used in a wide variety of timber joist or beam connections applications such as: common & wide joist support, double joist support, corner beam support, deep corner beam support and ledger plate to stud support.

Installation of the 1.95mm thick hanger is fast using Pryda Timber Connector Screws, and the hangers can be mounted in a range of orientations.

Please scan the QR code to view the product page and data sheet.

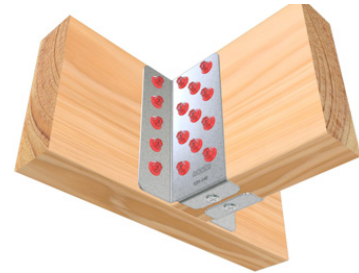

# PRYDA SPLIT JOIST HANGER

## KEY FEATURES

- More versatile for a greater range of applications
- Higher heavy-duty capacity
- Accommodate a wide range of beam widths – minimum 45mm; maximum 90mm
- Available in two different heights – 140mm & 220mm - SJH140 & SJH220
- Universal design that is easy and faster to install
- Rounded corners, no sharp edges making it safer to handle
- Screw fixing using Pryda Timber Connector Screws 12G x 35mm or 65mm
- Stamped with “Pryda” and product code “SJH140 or SJH220” for easy identification
